

Afro Cosmetics

January 30, 2024

To Whom It May Concern:

Afro Cosmetics supplies basic natural and generally edible oils to the cosmetic industry. We source these oils directly from manufacturers and refineries overseas.

Given the non-toxic nature of our products, they are not tested on animals for safety. Many of these oils have been used not only in cosmetics but also as food for humans for thousands of years (e.g., Olive Oil).

We are not aware of any of our suppliers that are involved in animal testing, nor do we believe there is any reason for them to consider animal testing given the nature of the products. We believe our natural oils align with the spirit of compassion for animals as outlined by corporate standards.

Subject to our terms and conditions of sale, Afro Cosmetics affirms that by fulfilling your order, we do not conduct or commission animal testing of any cosmetic and/or household products, including but not limited to ingredients or formulations of such products supplied to our customers. This affirmation is valid through December 31, 2024.

Although Afro Cosmetics believes the above information to be accurate based on the available information, it remains the responsibility of the customer and user of the material to perform their own investigation and due diligence prior to use to ensure that the product purchased from us meets their quality requirements and is appropriate for its intended use. The information provided is effective only for the lot with which it is being provided. Testing results for other lots or shipments of the material may differ, and by providing the above information, Afro Cosmetics does not make any representations as to what those results may be. Use and purchase of this material are subject to Afro Cosmetics' standard terms and conditions, which supersede any conflicting terms contained in the Buyer's purchase order or any document or instrument supplied by the Buyer.
